## EDUCATION

---

**NED University of Engineering and Technology, Karachi**  
*Bachelor in Software Engineering*

(Nov 2021 – Sep 2025)  
CGPA: 3.3

**AdamJee Government Science College**  
*Intermediate (Pre-Engineering)*

(2021)  
82%

**Quaid-e-Azam Rangers School**  
*Matriculation*

(2019)  
88%

## EXPERIENCE

---

**Intern – IT Department**  
*Pak Suzuki Motor Company Limited, Karachi*

(March 2024 – April 2024)

- Collaborated with the IT team to identify areas for improvement in the company's dealership web portal.
- Contributed to the enhancement of the web portal's user interface and functionality through active participation in design discussions and implementation efforts.
- Demonstrated adaptability and a willingness to learn frontend and backend of the web applications during the internship period.

## PROJECTS

---

**Dashy** | *React, SyncFusion, Tailwind CSS*

- Implemented data visualizations and charts using Syncfusion components to present complex data.
- Designed a responsive user interface using Tailwind CSS, ensuring consistent and optimized viewing experiences across devices.
- Implemented dynamic routing and navigation functionality to enable seamless navigation between different sections and modules of the dashboard.

**Hazri** | *Flutter, Firebase*

- Developed Facial Recognition-based Student Attendance Management app using Flutter aimed for universities and high school.
- Integrated Google's FaceNet model & ML Kit for on-device facial detection & recognition, providing faster <120ms inference time on average while ensuring reliably accurate identification of students in class environment.
- Integrated with firebase for secure storage, retrieval of attendance records, role based authentication and authorization.

## TECHNICAL SKILLS

---

**Languages:** HTML, CSS, JavaScript, Dart, SQL

**Frameworks:** React, Node.js, ExpressJS, Tailwind CSS, Flutter

**Developer Tools:** Git, GitHub, Postman

**Databases:** MongoDB, Firebase
